

Socket Art. BE14.07

- Compatible with all existing controller models.
- 10 Pin 4-J Slot connector.
- Equipped with pneumatic pressure switch.
- Designed for optimum connection to the truck.
- Manufactured according to EN 13922:2012 and API RP-1004.
- This element is part of the overfill prevention system which has the LOM 04ATEX2118 certificate.
- For use with 2 and 5 wire optic sensors.
- Sturdy construction: Body in aluminum alloy.
- Hard anodized treatment for better resistance and endurance of the socket base.
- Wirehole: M20 x 1,5 thread.
- Equipped with rubber dust cap (black).

Weight: 2,3 kg
